Gerald A

Full Stack Developer • Web, Desktop & Mobile • React | Node
Mumbai, Maharashtra, India

Summary

Full Stack Developer with experience building real-world applications including ERP systems, Electron-based tools, and automation solutions. Worked on production-level projects such as a QR coupon generator, attendance system, and business tools for non-tech clients. Skilled in React, Node.js, Express, and MongoDB, with a focus on building practical, efficient solutions. Also experienced in graphic design (Illustrator, Photoshop, InDesign) for clean and functional UI work.
